

PPA – Problem Solving with a Growth Mindset

PPA – Problem Solving with a Growth Mindset

This high energy, half-day workshop is a powerful combination of tools that people learn to use to establish a curious, innovative growth mindset and workplace tools to implement on-the-job.

People learn how to establish a positive outcome orientation, keep things in perspective and then implement new techniques in a collaborative work environment that is experiencing change.

Much more than just concepts, this is a course that provides people with practical tools to use in all aspects of their life. Like the other PPA courses, this course is different from a lot of courses in the same genre in that it is suitable for people of all ages, and all levels of seniority in organisations.

The 'no-fluff' approach that is focussed on practical application through activity-based learning throughout the session ensures that people are engaged, keeps it 'real' and has people walking away with tools and skills that are as powerful as they are simple to implement.

This is a practical class that is suitable for all audiences and provides people with the tools that they can apply on-the-job (and in other contexts) the very next day. This is an instructor-led class that you can attend from home or your office.

We use secure Video Conferencing with interactive features such as live polling, screen sharing, whiteboards, live chat and breakout sessions.

These courses are facilitated in English, and are open to people from different industries in all countries especially across The United States, Singapore, Malaysia, and Hong Kong - this is a short but powerful learning experience that gives you global collaboration opportunities. Our trainers and processes have been refined to give you a personalised learning experience where it is specifically targeted to your needs, see our outcomes in the reviews.

****Please note, these classes run to a very tight schedule, please follow the invitation and join the class 10-minutes prior to commencement so you are ready to participate and don't miss a minute!**

What You'll Gain:

Building Creativity and Problem Solving Capacity with a Growth Mindset

In this half-day, workshop-style activity, people are actively engaged in learning a powerful combination of self-management techniques and

workplace applications. The approach we take to situations depends on our mindset and perspective, and how we then execute and/or follow through.

This is a great foundation for developing teams that are more collaborative, take a curious (there must be a way) approach to challenges and work together to develop innovative solutions in a constructive and supportive way.

Highly recommended for teams and organisations that are needing to adapt and grow, and want to do so with a positive approach that finds solutions and moves forward together.

In collaboration with our clients, trainers, participants across the globe and our research & development partners (The OrgDev Institute and Leading Dimensions Consulting), PD Training has developed Productive People Advantage (PPA), designed for the needs of today to prepare your people and organisation to have a sustainable advantage tomorrow.

The combination of activities in this course provides a unique and powerful blend of self-management and workplace application.

This course works in perfect partnership with the other PPA modules.

Outcomes

This course will provide practical skills and techniques to help people improve their workplace performance in the following areas:

- Purposefully Creating an Activated/Proactive Team
- Recognising Growth and Fixed Mindsets
- Learning How to Train Your Brain to be Growth Oriented
- Reframing for Optimism to Develop a Better Culture, and Outcome Orientation
