

PPA – Taking Productivity to the Next Level

PPA – Taking Productivity to the Next Level

This activity-based, half-day Taking Productivity to the Next Level training course explores two main ideas: how do people make choices about how they spend their time? And how can they 'get in flow' to maximise their productivity in the time that they have?

The myth of multi-tasking will be exploded and replaced with mindfulness – enabling focus in the moment. Participants will explore how mindfulness can be applied to problem solving, conflict management and empathy – leading to greater understanding, faster results and greater harmony.

The research of psychologist Mihaly Csikszentmihalyi, the father of 'flow', will be used to give participants the tools to get in a flow state where their productivity is optimised.

Mindfulness and flow are fantastic tools and ways of being, but when should someone use them? The course looks at the other major impact on productivity; time - how to decide what to spend it on?

Participants will leave an action packed half-day with both tools and strategies to optimise their productivity.

This is a practical class that is suitable for all audiences and provides people with the tools that they can apply on-the-job (and in other contexts) the very next day. This is an instructor-led class that you can attend from home or your office.

We use secure Video Conferencing with interactive features such as live polling, screen sharing, whiteboards, live chat and breakout sessions.

These courses are facilitated in English, and are open to people from different industries in all countries especially across The United States, Singapore, Malaysia, and Hong Kong - this is a short but powerful learning experience that gives you global collaboration opportunities. Our trainers and processes have been refined to give you a personalised learning experience where it is specifically targeted to your needs, see our outcomes in the reviews.

****Please note, these classes run to a very tight schedule, please follow the invitation and join the class 10-minutes prior to commencement so you are ready to participate and don't miss a minute!**

What You'll Gain:

Maximising Productivity, Proactivity and Quality

In this half-day, workshop-style training session we explore the concept of "Multi-tasking" and how a better approach to improving productivity is to replace 'multi-tasking' with 'mindfulness' and focus on being 'in the moment'.

Next we explore the concept of 'flow' and how to best align yourself with being 'in the flow' when conducting work-related tasks. The lesson touches on how managers can improve the 'flow' of their team members.

Finally we consider on the concept of 'time' and how to avoid procrastination while focusing on, and developing priorities, which aid in maximising both personal and team-based productivity while improving the quality of outcomes at the same time.

PD Training's new signature series program - Productive People Advantage brings together the best activity-based learning, incorporates practical workplace tools, and leverages the latest research in neuroscience, psychometric profiling and emotional intelligence in new ways to develop and measure previously elusive to target or measure capabilities.

In collaboration with our clients, trainers, participants across the globe and our research & development partners (The OrgDev Institute and Leading Dimensions Consulting), PD Training has developed Productive People Advantage (PPA), designed for the needs of today to prepare your people and organisation to have a sustainable advantage tomorrow.

In conjunction with the other PPA courses, this helps give people and organisations a competitive advantage through more productive people.
